## 360° panoramic view angle with 1/3" fisheye Lens, no blind area

see the entire room in stunning HD video quality during the day or at night(with Night Vision)

Using a new image processing algorithms and H.264 encoder, after through advanced the low power consumption technology and architecture design, making H264 SE low bit rate, high image quality, low power consumption.

### Home Security IP Camera

#### 1. Key Features of the Fisheye Panoramic Wifi Network Camera:

- ※ 360 Degree View, Multi View Window option, rotation angle can be adjusted
- ※ Remote real-time video, playback, alarm push, never miss any moment
- ※ IR-CUT double filter. Auto switch between day and night, restoring clear true color
- ※ Two-way audio -listen and talk with your kids and pets using the built-in mic and speaker
- ※ Easy remote access setup with free mobile app just in seconds
- ※ No wiring construction troubles, easy installation
- ※ Electronic PTZ function, multi angle monitoring at the same time , Electronic zoom function

#### 2. Specific Parameters of the HD Water Resistant Camera:

MODEL	V380
DSP	MSC313E
Sensor	SC2135
Pixels	2.0MP
Lens	1.35mm
Video	H.265/25FPS(1080P)
Night vision	3 Led lights, IR-CUT filter ,Night Vision 5-10 Meters
Minimum Illumination	0.1 Lux@(F2.0,AGC ON),0.01 Lux with IR
Network	WiFi Wireless Transmission(support IEEE802.11b/g wireless protocol )
Network protocol	TCP/IP、 UDP、 HTTP、 DDNS、 DHCP、 FTP、 NTP
Alarm	Motion Detection, Alarm picture push
Storage	Cloud Storage Service,Support Micro SD Card(Max 64G,4-5 days video storage)
Power Supply	DC5V /1A
Working environment	-10°~50°, 10%~95%

#### 3. Product Introduction of the CCTV Surveillance Wireless Camera:

V380 is a device that monitor and manage your home all day. With 2 in 1 function, it is not only a security camera and video monitoring, but also a connecting device via two-way talk with your family, friends and pets etc. It supports WiFi for easy network connection and can deliver high quality 1080P video. It has the function of electronic PTZ, you can adjust the monitoring pictures freely and choose the angle you want through the phone APP. Besides, there is a micro SD(TF) card slot for on-board video storage (Max. 64G).
